## Welcome to your new home

This Home Users Guide has been prepared to help you become familiar with your new home quickly and easily.

It contains information on how to look after your new home, how to report certain types of problems, electricity and water supply information details of your home's Code for Sustainable Homes rating, as well as advice on safety and security. We have also included technical help and practical tips on D.I.Y, energy saving and recycling.

When you move into your new home you will be given various leaflets supplied by the manufacturers and installers of the equipment in your home. Please keep all this information in a safe place, together with this handbook so that you can refer to it in the future.

Nothing in this document can be construed or implied as a warranty. Your rights under the NHBC warranty are not affected. Godliman-Watson cannot be held responsible for problems which may arise as a result of any owner/occupier failing to uphold the recommendations offered here.

The information in this Home Users Guide is correct at the time of issue based upon the facts at Godliman-Watson Homes disposal. Godliman-Watson Homes cannot be held liable for any future changes which may invalidate its content.

# 1. Introduction

Today's new homes include a great many improvements in construction that have been introduced over the years, but your new home still needs to be run-in gently for the first few months. This is because bricks, timber, plaster and other materials generally absorb water during construction.

As the home is lived in and heated it dries out. As it dries out, the wood and plaster in particular may shrink, causing small cracks to appear. These cracks are not structurally important and are covered in the normal process of redecoration. Because cracks are inevitable the builders are not obliged to rectify them unless they are larger than 3mm in width.

New buildings often take a long time before they are fully dried out. While this is happening they need heat and extra ventilation. During the first winter of occupation most houses and flats require gentle heat over more hours than they may need in subsequent winters. Allowance should be made for this. The builder will repair any very large cracks caused by this process at the end of the defects period. If at all possible, try and avoid any decorating during the first year, especially using wallpaper as it is very difficult to assess the extent of any cracking if the walls have been papered over, for example.

## CARE MUST BE TAKEN NOT TO PUNCTURE THE EXTERNAL WALLS

### Minimize cracking

By taking the following steps you should be able to reduce occurrence of cracking due to shrinkage:

1. Avoid large temperature differences during the day by setting your heating controls at a comfortably low level for longer periods (instead of shorter periods on a higher heat setting). This allows your home to gradually warm up.
2. Check to ensure all trickle vents (ventilation slots in your windows) are open 24 hours a day. This allows gradual, gentle ventilation.
3. Encourage ventilation by opening windows and internal doors whenever you reasonably can.
4. Keep kitchen and bathroom doors closed when cooking or washing as these activities create a lot of water vapour, which should not be allowed to spread to other rooms in your house. Ensure that the extractor fans are on when you wash or cook and open a window where appropriate.

### Preventing condensation

Condensation is steam or water vapour that turns into water by condensing on cold surfaces, and next to shrinkage is often the most common problem in new homes. It can damage clothes, bedding, floor coverings, decorations and the home itself if mould growth takes hold on walls and ceilings. Homes that are heated and ventilated intermittently are more likely to suffer condensation problems. The moisture in the air comes from a number of sources within the house – water vapour is produced in relatively large quantities from normal day to day activities such as washing and drying clothes, personal washing and cooking.

To help deal with condensation you should take the following steps:-

### Produce less moisture

Ordinary daily activities produce a lot of moisture. Be conscious of minimizing the amount of moisture you produce when for example boiling kettles, running baths, and cooking.

- Use lids on all pans when cooking (this saves fuel too).
- If possible, dry clothes outside or make use of the rotary dryer which is available on the premises.
- Do not use paraffin heaters (they produce a lot of water vapour).
- Wipe up wet surfaces after use e.g. bathroom tiles, kitchen worktops and sinks.

Ventilate to remove moisture

You can ventilate your home without making draughts. Some ventilation is needed to get rid of the moisture that is produced all the time. Keep your trickle vents or passive ventilation open 24 hours a day. Consider having a window ajar when someone is in the room.

You need much more ventilation in the kitchen during cooking so you should open a nearby window. Close the kitchen and bathroom doors when these are in use. This stops the moisture reaching other rooms, especially the bedrooms that are often colder and more likely to suffer from condensation.

Cupboards and wardrobes can be ventilated by opening and closing doors to circulate the air. Avoid putting too many things in them as this can stop the air circulation. Leave a space between the back of the furniture and walls and if possible do not position wardrobes, beds and large pieces of furniture touching external walls.

You should also:

While drying clothes indoors, ventilate the room.

After a bath or shower, try to ventilate the room to the outside, not the rest of the home – opening a window (closing the door) and/or allowing the extractor fan to run on will help.

Make sure the extractor fan or passive ventilation is operative. Extractor fans often have an air-moisture switch so that they operate automatically while the moisture in the air is above a set amount.

**Efflorescence**

This is another sign of drying out that may appear as white deposits on outside walls. This is caused by salts coming out of the wall materials. On external walls the efflorescence will eventually disappear. This should not occur on internal walls using phosphoric acid. After application the acid dilution is neutralised with a mild and diluted detergent, and then rinsed thoroughly with water.

## 2. Environmental Design Features

### Code for Sustainable Homes rating

Your home has been developed to meet a Code for Sustainable Homes rating of Level 3. A copy of the final Code certificate will be issue to you in due course.

### Design strategy

Great care has been taken to create a sustainable and attractive development. A variety of ecologically friendly features have been incorporated within the design to reduce the running costs of your property and limit the burden on sustainable resources.

### Special features

The apartments benefit from ecological features such as high levels of insulation and 75% energy efficient lighting. These features will help reduce the running costs of your property and all contribute to the Code for Sustainable Homes rating of Level 3 which the development is on target to achieve.

### Energy efficient lighting

75% of your lighting is energy efficient. The high thermal performance of your property could mean that up to 75% of your total fuel costs, 33% of CO2 emissions and approximately 20% of total energy use will result from lighting. According to the Energy Savings Trust, the average 20w CFL as opposed to a 100w tungsten bulb can save in the region of £78.14.

### 3. Energy

#### Your home and global warming

The earth is surrounded by an atmosphere which keeps it at a constant temperature. Certain gases released into the atmosphere make it work like a blanket, trapping heat in. These are known as greenhouse gases.

There is evidence that the earth is heating faster than ever before because we produce too many of these harmful greenhouse gases. For example, the nine warmest summers in the UK since records began have occurred in the last twelve years.

As well as saving the earth, it is estimated that the average household could also save £300 a year in energy bills by being more energy efficient.

#### Heat your home for less

A few simple steps could result in your home costing less to heat, as well as producing less of the harmful CO2 emissions. According to the Energy Savings Trust you should:

- Turn your thermostat down by 1C as this can cut more than 10 percent from the average central heating bill.
- Close your curtains at night and make sure they are tucked behind the radiators (saves up to £15 a year)
- Close windows when the heating is on – but remember to leave vents open to prevent condensation
- Wear warm clothes when indoors during winter months. Set heating controls so that your property is not heating when you are not going out for long periods of time.
- If you have adjustable radiator valves, turn them down (but not off) in rooms not in use.

#### Lighten your bills when you light your home

In most homes, lighting accounts for around 10 to 15 percent of an electricity bill. If everyone in the UK

installed one energy saving light bulb, we'd save enough harmful CO2 to fill the Royal Albert Hall nearly 200 times. According to the Energy Savings Trust:

- Energy saving lights bulbs use 70 percent less energy than normal light bulbs but are just as bright.
- Switching from a standard bulb to an energy saving bulb can reduce your electricity bill by up to £9 a year.
- Remember to turn the lights off when you leave a room – no matter what kind of bulb you have – this can save you £7.50 a year.

75% of your home's lighting is supplied by dedicated low energy lights. The average life of a CFL is 8-15 times longer than that of traditional bulbs. While the purchase price of a CFL is typically 3 to 10 times greater than a traditional bulb, the extended lifetime and reduced running cost more than compensates for this.

#### Use your kettle to stop your bills boiling over

You can help save energy in many ways around the home even when making yourself a cup of tea or coffee. It's easy to use your kettle efficiently and save money.

- Only put as much water as you need when boiling the kettle but always cover the element.
- Remove lime scale in your kettle by leaving in a cup of vinegar overnight. Kettle elements coated in lime scale use more energy.

#### Washing savings

Washing and drying your clothes can be a costly business – but it needn't be. A few seconds preparation could help you save energy and money when you do your laundry.

- Modern washing powders and liquids work just as well at lower temperatures. According to the Energy Savings Trust, washing at 40C will use a third less electricity than at 60c
- Run the washing machine with full loads

Let clothes dry naturally if at all possible using the rotary dryer available on the premises.

### **Say goodbye to standby**

How many of us leave appliances plugged in all the time? If chargers for devices such as mobile phones, laptops and MP3 players were unplugged when not in use, the UK could save enough electricity each year to power 115,000 homes.

- Almost a billion pounds worth of electricity is wasted in the UK every year by people leaving appliances on standby.
- Don't leave appliances on standby or on charge unnecessarily. Once they are fully charged or not in use switch them off.

### **Look for the logo and lower your bills**

An easy way to ensure you save energy when you buy new appliances is to look for the energy saving logo. You can find it on a wide range of products.

The EU energy label rates products from A+ (the most efficient/least energy used), down to G (the least efficient/most energy used).

By law the label must be shown on all refrigeration and laundry appliances, dishwashers, electric ovens and light bulb packaging.

An energy saving washing machine needs two-thirds of the energy of an old inefficient model.

An A rated washing machine will cost less than seven pence worth of electricity per cycle (if you use the economy cycle recommended by the manufacturer) and save on the amount of water used.

**For further information on any of the energy saving tips in this section visit**

**[www.energysavingtrust.org.uk/myhome](http://www.energysavingtrust.org.uk/myhome) or call 0800 512 012**

### **The EU Energy Labelling Scheme for white goods**

This leaflet explains the mandatory EU energy labeling scheme for white goods. The systems used by the EU

Energy Label runs on a scale from A+ to G. A copy of this leaflet is included as Appendix A to this guide.

## **4. Water Use**

### **A fresh approach to saving water**

Here in the UK, the issue of water is becoming a really important issue. As our weather has become warmer our underground reserves of water have started to dry up. It is now important that we learn to respect the way in which we use water every day.

The following advice can assist in reducing your daily water use:

- Turn off the tap when you brush your teeth.
- You have a water butt to collect rainwater, use it for washing your car in the evening to prevent evaporation.
- Taking a five minute shower uses 60 percent less water than bathing.
- With regards to your hot water tank, set the cylinder thermostat at 60C/140F.
- Turn off the dripping taps – or get them repaired. If you leave a tap dripping it will produce enough water to fill half a bath every week.
- Check for water leaks on a regular basis.
- Wash your car by hand – it saves water compared to using a hosepipe.

Water saving features in your new home:

- Your toilet has a 4/2 litre dual flush and you should use the low flush wherever possible. According to the Energy Savings Trust, you could save as much as 2,000 litres per person per year.
- Flow restrictors have been fitted to all the kitchen and bathroom taps and shower to reduce water wastage.

## 5. Recycling and Waste

The contact details for the refuse and recycling collections operated by Salford City Council are as follows:

**Email:** [environment@salford.gov.uk](mailto:environment@salford.gov.uk)

**Website:** [www.salford.gov.uk/rubbish](http://www.salford.gov.uk/rubbish)

**Telephone:** 0161 909 6500

**Post:**

Environment Services  
Turnpike House  
631 Eccles New Road  
Salford  
M5 2SH

Refuse and recycling collection service

Salford City Council collects general waste refuse from your property once a week and recycling refuse every month from the refuse bay.

There are exceptions to this rule on Bank Holidays and annual events. Further information can be found at: [www.salford.gov.uk](http://www.salford.gov.uk)

Please note that the Council will not collect any of the following items in their weekly collection service:

**Bulky items** – Salford City Council in partnership with Salford Community Transport ‘New to You’ can now provide residents with a free collection service for any re-usable bulky waste items such as beds, suites, drawers, washing machines and tumble dryers.

Salford Community Transport ‘New to You’ is a charity which collects good quality unwanted furniture for the

re-supply to families and individuals in need and will collect any reusable household items free of charge.

What items can be collected free:

Beds

Three piece suites

Washing machines

Tumble dryers

Wardrobes

Chest of drawers

Dressing and dining tables

To be eligible, your bulky waste items need to be in good condition and not flat packed, damaged or in need of dismantling for transport.

To arrange a collection or for more information please call Salford Community Transport ‘New to You’ on **0161 736 8852** or email: [salford@communitytransport.org](mailto:salford@communitytransport.org).

**Alternatively, you can also donate your unwanted furniture at the Lumms Lane Household Waste Recycling Centre.**

Disposal of non re-usable bulky waste

Unfortunately, Salford Community Transport **cannot collect items that are not re-useable** such as non fire retardant suites, mattresses, other soft furnishings, fridges and wooden items in need of repair.

In this case, the council can collect up to four items of bulky waste from you for a cost of **£24.14 per collection** (excluding builder’s rubble, bricks, and concrete, paving flags and other heavy items and gas bottles).

For more than four items or to arrange a collection from commercial premises, one of their environmental co-ordinators will visit you to quote an individual price.

For more information or to arrange a collection contact them on 0161 909 6500 or email [environment@salford.gov.uk](mailto:environment@salford.gov.uk)

Items requiring special handling arrangements

Please be aware that the following items require a separate collection (which may include an additional charge) as there are restrictions for either legal reasons or because the items are classed as hazardous.

These are:

- Asbestos
- Fridges/freezers
- Tyres

- Gas canisters
- Fluorescent lights
- Sun bed tubes

**Broken glass**, including window glass. Window panes, light bulbs, glass ovenware or electrical equipment cannot be recycled. You are able to dispose of these at any of Salford City Council's Household Waste Recycling Centres or carefully within your normal household waste.

**Clinical waste** – Please note that Salford City Council **are not** licensed to remove clinical waste from your premises. Clinical waste needs to be collected by a specialist company. If you need further information contact Salford City Council 0161 909 6500.

**Vehicle batteries** – Batteries **should not** be put in your residual waste bin, recycle car batteries at your local Household Waste Recycling Centre. They can also be taken to some garages and scrap metal facilities.

**Hazardous chemical waste** - Chemicals **should not** be placed in your residual waste bin. Any unwanted chemicals can be taken to any of Salford City Council's Household Waste Recycling Centre. Ask the member of staff present where it should be placed on arrival.

**Animal carcasses** – Salford City Council is able to provide a dignified collection service for dead animals, either found dead at home or reported as found dead on the street / public open space. Every reasonable effort is made to trace the owner to inform them of their pet's death. Collected animals are taken to the incinerator at Cobden Street. For further information contact 0161 909 6500.

**Gas cylinders** - Gas cylinders are not waste. They should be returned to the retailer or supplier so that they can be reused. To find your nearest collection point, call the Cylinder Retrieval Scheme on **0845 050 0056**.

Calor gas cylinders remain the property of the issuing company return them to the address shown on the label. If there is no ownership address on the cylinder, contact Calor Gas on **01926 330088** for advice. If this is not possible, all types of gas cylinders can be taken to any of Salford City Council's Household Waste Recycling Centres.

**Camping gas cylinders** - Small empty gas cylinders can be put in the rubbish bin. If the cylinder is leaking and you are concerned, contact the manufacturer or the Fire Service.

Cylinders can also be taken to your local Household Waste Recycling Centres. **Do not** place gas cylinders in your residual waste bin.

**Fire extinguishers** - Fire extinguishers contain chemicals that could cause explosions if they are not disposed of in the correct manner. The Environment Agency suggests contacting the supplier for the correct disposal advice as there are so many types. If this is not possible, then contact the Fire Brigade for advice.

Empty fire extinguishers can be returned to the manufacturer for reuse.

Do not place fire extinguishers in your residual waste bin.

They can be taken to your local Household Waste Recycling Centre. Ask the member of staff present where it should be placed on arrival.

**Building materials** – These can be taken along with domestic rubble and hardcore to your local Household Waste Recycling Centres for recycling.

Alternatively, you can hire a skip to dispose of this type of waste. For local skip hire companies, see the Yellow Pages.

**Tyres** - Unwanted tyres **must not** be placed in your household rubbish. Most garages will take unwanted tyres for recycling or safe disposal. Tyres can be collected as part of Salford City Council's bulky waste collection service. Alternatively they can be taken to one of Salford City Council's Household Waste Recycling Centres where they will be disposed of responsibly.

This is purely for members of the public and **not** trade and therefore a limit of four tyres is imposed.

**Liquid waste, including tins of paint - Paint must not be poured down the drain.** Paints, varnishes, wood stains and other liquid waste can contain hazardous chemicals or solvents including heavy metals. They must be disposed of accordingly.

Take them to one of Salford City Council's Household Waste Recycling Centres where they will be disposed of

responsibly. Ask the member of staff present where it should be placed on arrival.

### **White Goods - e.g. cookers, refrigerators and washing machines**

When replacing white goods, request with delivery, that the company takes away the old appliance.

White goods can be collected as part of Salford City Council's bulky waste collection service. Please note it may incur a charge.

Unwanted appliances can be taken to your local Household Waste Recycling Centre.

### **SALFORD CITY COUNCIL'S HOUSEHOLD WASTE RECYCLING CENTRES:**

Salford Treatment Plant (Domestic & Trade Waste)  
Cobden Street  
Pendleton  
M6 6NA  
Telephone: 0161 736 9559

Lumm's Lane (Domestic only)  
Clifton  
Swinton  
M27 2LN  
Telephone: 0161 794 8832

Lester Road (Domestic only)  
Little Hulton  
Worsley  
M28 6PT  
Telephone: 0161 790 1278

Boysnope Wharf (Domestic only)  
Irlam  
M30 7RH  
Telephone: 07921 471 697

### **Materials that can be taken to the Household Waste Recycling Centres:**

Asbestos, batteries, books, cans, cardboard, cell batteries, computer monitors, fridge/freezer, gas bottles, glass, green waste, non ferrous scrap, oil, paper, plastic bottles, rubble, scrap metal, textiles, TVs, tyres, wood.

### **Recycling in Salford**

From **Tuesday 12 April 2011** recycling collections changed from a fortnightly to monthly collection schedule.

Under the new scheme: **Recycling bins will be collected once a month** on the same day as the household waste bin.

**Collection of all other bins will not change** with your general domestic waste collected weekly and garden waste collected fortnightly.

Your refuse is collected once a week from your home. Domestic refuse collections are carried out Tuesday to Friday (depending on where you live) and are not normally affected by bank holidays.

### **What goes in my household waste bin?**

All plastic bottles that are found in the kitchen, the bathroom and under the sink, such as washing up liquid, squash and bleach bottles, can be recycled. These will be turned into items such as car bumpers and garden furniture. No lids though as they are different plastic that can't be recycled.

Any other type of plastic, such as plastic bags, food trays, yoghurt pots, plastic film, and plant pots, cannot be recycled and should be placed in your non-recyclable rubbish bin - as well as items like children's toys, unless they are in a good enough condition to reuse or send to a charity shop.

Drinking glasses, Pyrex crockery or light bulbs but not leaded or windscreen glass and mirrors these can be disposed at one of Salford City Council's Household Waste Recycling Centres.

All other glass, cans, tins, plastic bottles and foil, paper, newspapers and cardboard should be placed in the appropriate recycling containers.

### **Assisted collections**

Salford City Council can provide assistance to residents who are unable to wheel their own bins to the kerbside for collection because of disability, ill health or mobility problems.

To apply for assistance please either ring the call centre on 0161 909 6500 or email them on [environment@salford.gov.uk](mailto:environment@salford.gov.uk).

Once your request has been logged you will be sent a form to complete, outlining your application. All information provided will be treated in confidence and in strict accordance with the Data Protection Act 1998.

Upon receipt of the completed form you will receive a letter to inform you of the outcome of your application.

The assisted bin collection scheme offers help with your wheelie bins for both waste and recycling. Once you are on the list your recycling bins will also be included for assistance.

### **Internal recycling facilities**

Your home is fitted with 3 x 10 litre recycling bins within the kitchen area one for non-recyclable residual waste, one for paper and cardboard and one for plastic and glass. Waste from these bins are to be emptied in the corresponding 1100 litre Eurobins stationed in the bin/recycling area of Spark Studio.

More details of which refuse is recyclable in the Salford City Council area are on pages 12 and 13.

### **External recycling facilities**

Spark Studio apartments and office units have a dedicated external bin storage area with two Silver residual waste bins, two Blue paper and card bins and two Brown plastic and glass bins.

All the external bins provided have covers.

The Silver residual bins will be emptied weekly and the Blue and Brown bins will be emptied monthly.

The external bin storage area is approximately 15 metres from the front door of Spark Studios.

Your weekly refuse collection day is: **Wednesday**

For your monthly recyclable refuse please see: [www.salford.gov.uk](http://www.salford.gov.uk) for collection details.

### **Recycle for Greater Manchester**

Across Greater Manchester there is a strong partnership of local authorities and private companies working together to manage your waste.

Greater Manchester Waste Disposal Authority (GMWDA) is a statutory authority that has the responsibility of managing the disposal of your waste. The GMWDA works closely with private companies to run waste processing facilities which receive, sort, process and treat both general household and recycling waste.

Across Greater Manchester your waste will be treated and processed in a revolutionary way.

1.1 million Tonnes of waste will be handled each year and they will be building on the past successes of Greater Manchester which has seen a rise from 7% recycling in 2002/03 to over 30% today.

This new way of treating your waste will ensure an impressive recycling rate of at least 50% by 2015, and will also divert more than 75% of waste away from landfill. It will provide a world class solution for Greater Manchester's household waste, serving approximately 973,000 households and a resident population of over 2.27 million.

As part of their waste solution GMWDA are committed to changing the way that you deal with your waste.

Through their diverse and varied communications campaigns they will support and promote 'Waste Prevention' initiatives to help you reduce your waste in the first place.

They will then, where ever feasible, encourage and support initiatives to help you re-use your waste by facilitating projects that can find a new home for the items that you no longer need.

Via their improved collection and treatment facilities everything that comes to them that can be recycled or composted will be. For everything that is left over they will recover the energy from it.

As a last and final option and after all the previous steps have been explored less than 25% of your waste will go to landfill.

Find out more about what GMWDA are doing by going to their website:

[www.recycleforgreatermanchester.com](http://www.recycleforgreatermanchester.com)

### **Sustainable Waste Tips**

We recommend the Reduce, Reuse and Recycle method for sustainable waste management. This is as follows:

REDUCE
Do not buy items with excess packaging
Do not buy disposable items where a reusable option exists
Take your own bags with you when you go shopping
Donate old magazines to dentists/doctors waiting rooms
Buying concentrated products that use less packaging
Removing your name from junk mail lists – see details on page 11
Buying a compost bin

REUSE
By using items again and again e.g. plastic cups and bottles, bags and jars
By repairing broken items
By reusing envelopes
By using refillable instead of disposable pens
By donating old computers to community groups or schools
By donating old clothes to charitable organisations

RECYCLE	
WASTE TYPE	APPROACH
Glass	Use bottle banks or appropriate supplied household recycle bin
Clothes and Linen	Take to charity shops such as Oxfam or British Heart Foundation if in good enough condition if not put in clothes recycling bins
Metal Cans	Take cans to recycling bank or put in appropriate supplied household recycle bin

RECYCLE	
WASTE TYPE	APPROACH
Furniture	Salford Community Transport 'New to You' is a charity which collects good quality unwanted furniture if not take to one of Salford City Council's Household Waste Recycling Centres.
Tools	Unwanted tools can be donated to local charity shops where they can be scraped for metal. Tools for Self Reliance will take tools and donate them to places such as Tanzania, Ghana, and Mozambique etc. For your nearest local coordinator call <b>023 8086 9697</b> . Unwanted tools may also be welcomed by local conservation groups. Alternatively, if the tools cannot be reused then they can be taken to one of Salford City Council's Household Waste Recycling Centres.
Toys	Old toys and games can be passed onto friends and family or donated to charity shops, hospitals and playgroups if in a suitable condition. Failing this, they can be placed into your residual waste bin
Electronic Equipment	If in good enough condition donate to charities, schools or community groups if not take to one of Salford City Council's Household Waste Recycling Centres.
Plastic	For more information on which plastics can be recycled go to: <a href="http://www.salford.gov.uk/recyclinga-z-p">www.salford.gov.uk/recyclinga-z-p</a>
Buy recycled/eco-friendly products	For more information check out: <a href="http://www.recycledproducts.org">www.recycledproducts.org</a> or <a href="http://www.naturalcollection.com">www.naturalcollection.com</a> or <a href="http://www.greenchoices.org">www.greenchoices.org</a>

**Controlling your mail -****Opting out of Royal Mail's Door to Door service**

If you want to stop receiving unaddressed mail delivered by Royal Mail to your home you can do so by contacting Royal Mail at:

Freepost RRB-TZB-XB-TTTS  
Royal Mail Door to Door Opt Outs  
Kingsmead House  
Oxpens Road  
OXFORD  
OX1 1RX  
email: [optout@royalmail.com](mailto:optout@royalmail.com)

You will then receive an opt-out form to your address, which you must sign and return - for security reasons and to verify that those resident at the address have requested the 'opt out'.

Once you've returned this form, Royal Mail will stop delivering unaddressed items to your address within 6 weeks. The opt-out will last for a period of two years from the date they receive your opt-out form. If you wish to continue your opt-out after the two-year period you can do so by contacting them via email at [optout@royalmail.com](mailto:optout@royalmail.com) or via telephone on 01865 796964, or at the address above.

Please be aware that the opt-out service only relates to unaddressed mail which counts for about 25% of the total volume of unaddressed mail items in the United Kingdom. Royal Mail is still legally obliged to deliver all addressed mail, which includes mail that is addressed "To the Occupier" (or with any other generic recipient information), as well as mail that is personally addressed to you by name.

If you would like to stop any other unwanted communications please visit [mydm.co.uk](http://mydm.co.uk) which provides details on all other preference services, or call 0845 703 4599.

# Blue bin

All cardboard

Directories

Sandwich wrappers • Bottle tops • Plastic bags

Don't forget:

- Please rinse all bottles and cans.
- Put your rubbish directly into the bin, not in plastic bags.

**Recycling**

**IN Salford**

## 6. Sustainable DIY

### CAUTION:

A significant number of accidents in the home result from DIY activities

Beware of cables and pipes within the wall, never fix directly above or below a switch or socket nor either side horizontally to a switch or socket – this is called the “NO FIX” zone and is 300mm wide. Cable and pipe detectors can be bought from most DIY and hardware stores and should be used before attempting any fixing.

If you have concerns about the work that you want to do, you should contact a suitably qualified tradesperson.

### Fixing to a wall

Most of the walls in your house are plasterboard, fixed to timber studwork. Care needs to be taken when making fixings to plasterboard walls. Very light items may be fixed by using adhesives to the manufacturer’s instructions but be careful – the bond can be no stronger than the adhesion of the paint to the wall and if you decide to remove the item in the future you may damage the paintwork or the plasterboard.

Pictures, if not large, and other small items may be hung on picture hooks, either single or double nail types. Heavy pictures and mirrors should not be hung on picture hooks. Instead use a special wall plug fixing specifically designed for fixing to plasterboard. The special wall plugs are available from hardware and DIY stores. If fixing through wall tiles keep the end of the wall plug level with the plaster face and not the face of the tile.

### Fixing to a ceiling

It is possible to fix items to the ceiling but you should take care not to suspend heavy objects from the ceiling.

### Blockages

**Kitchen waste pipes** – if a blockage occurs and the sink is full of water try to remove the blockage by using a proprietary sink unblocking product which can be bought at hardware stores and supermarkets. With care, you could try pushing a flexible rod down the plughole or by using a suction cup plunger to force water up and down the waste pipe.

Avoid blockages by using a sink waste catcher available from most hardware stores. Do not pour fat or oil or large particles of food down your sink waste as this will block the system and can attract rats in the drains. Put all food waste into your bin or food recycling where appropriate. Fat and oil (when cool) should be put into an empty tin or milk carton, in your bin, rather than down the drain.

**Baths and Basins** – blockages here are normally caused by a build-up of hair and soap and become noticeable when the bath or basin starts to drain away more slowly.

**WC’s** – never flush disposable nappies, sanitary items, food or similar items down the toilet – these can cause a serious blockage which will need to be cleared by a professional drain cleaning company for which you will be responsible.

### Sanitary ware

Clean baths, basins and sinks with the recommended products to avoid damaging surfaces. Do not use scouring or gritty cleaners. Bleach should not be mixed with lavatory powder nor allowed to stand in stainless steel sinks.

### Helping the environment

When doing DIY there are some things you can do to help the environment:

- Use environmentally friendly products and components. Avoid the use of products that can contain hazardous chemicals and volatile compounds (VOCs).
- Use timber from sustainably managed sources (i.e. has been certified by the Forestry Stewardship Council or

Programme for the Enforcement of Forest Certification) or reuse or recycle where possible.

- Always dispose of waste responsibly. Contact Salford City Council on 0161 909 6500 for advice and information about how to dispose of any hazardous materials safely.

Carrying out DIY activity such as drilling, hammering and sawing can be noisy and disturbing. Please be considerate regarding the time of the day that you carry out your DIY task and alert your neighbours before you start a noisy job, whether it is inside or outside your home.

## 7. Responsible Purchasing

### Low energy/low water white goods

The purchase of white goods with the highest ratings under the EU Energy Labelling Scheme assists with reducing energy and water usage.

<b>Energy efficiency</b>	The more efficient the product, the less energy it needs. 'A' rated products are the most efficient and 'G' rated the least efficient.
<b>Water conservation</b>	<p>To help you choose a water efficient model, here are details of roughly how much water typical appliances use:</p> <ul style="list-style-type: none"> <li>• <b>Washing Machines:</b> 30-100 litres per wash programme (based on a wash capacity of 5kg)</li> <li>• <b>Washer-dryer:</b> 60-200 litres per wash and drying programme (based on a wash load of 5kg)</li> <li>• <b>Dishwasher:</b> 10-30 litres per wash (based on an 8 place setting)</li> <li>• <b>Dishwasher:</b> 10-50 liters per wash (based on a 12 place setting)</li> </ul>

<b>Light bulbs</b>	In addition to the standard A-G scale for energy efficiency, information on the packaging must include luminous flux (light output) of the light bulb in lumens, the input of the bulb in watts and the average life of the bulb in hours.
<b>Economic savings</b>	Actual savings depend on how you use the products and how much you pay for your electricity. You can also save money by running washing machines, washer-dryers and dishwashers only when you have a full load. Use economy and low temperature settings, and spin dry clothes well before you tumble dry. Ensure that fridges and freezers are installed well away from cookers.

For more information go to:

[www.energysavingtrust.org.uk](http://www.energysavingtrust.org.uk)

### Low energy lighting

In most homes, lighting accounts for around 10 to 15 percent of an electricity bill. If everyone in the UK installed one energy saving light bulb, we'd save enough harmful CO<sub>2</sub> to fill the Royal Albert Hall nearly 2,000 times.

Energy saving light bulbs uses 70 percent less energy than normal bulbs but are just as bright.

Switching from one standard bulb to an energy saving bulb can reduce your electricity bill by up to £9 per year.

Remember to turn lights off when you leave a room – no matter what kind of bulb you have – this can save you £7.50 a year.

### Sustainable timber procurement

Sustainable timber means that the tree harvested will be replaced with another tree, whether naturally grown or planted. 'Sustainable timber' means that regardless of the extraction of individual trees, the forest maintains its ecological function as part of important climate and water cycles.

Independent verification and forest certification are the most workable ways for the trade to ensure legal and sustainable timber. There are many certification schemes such as FSC, PEFC, MTCC and SFI.

To guarantee customers that the certified goods they buy are genuinely the products of a well-managed forest, a **Chain of Custody Certification** is required. The Chain of Custody system enables to trace back the certified timber from the end user to the source forest. It requires that certified products are identified, segregated and accompanied by appropriate documentation at all stages. A certified company must prove that it does have an effective control system to trace back its raw material through processing, transformation and distribution, to the certified source.

[www.sfiprogram.org](http://www.sfiprogram.org)

### Organic and local produce

The local food movement is a collaborative effort to build locally based self-reliant economies. Non-local food is often seen as a result of corporate management policies, lack of care for the environment and poor working conditions. For many, local food is unprocessed and can directly be enjoyed by the local shop and customer. Local food reduces transport costs, processing, packaging and the need for advertising.

Since the early 1990s organic farming has grown by around 20%. It's a heavily regulated industry. Food is grown without the use of pesticides, fertilizers and additives. Organic farm is thus less damaging to the environment and studies have shown that they are associated with higher yields, greater nutrient value and increased energy efficiency.

[www.soilassociation.org](http://www.soilassociation.org) or 0117 314 5000

### Farmers' Markets

The produce sold at farmers' markets is renowned for being fresh and locally grown. Your nearest farm market is held on the second and fourth Friday of every month

at Piccadilly Gardens in Manchester City Centre  
approximately 2.4 miles away.  
Contact: 0161 234 7357 for more details

### MANCHESTER FARMERS' & PRODUCERS' MARKETS

The farmers themselves attend this market giving you the opportunity to ask them all about the products they are selling.

The market contains a number of stalls and brings together farmers from across the North West, selling a whole host of fresh produce.

A wide variety of fresh meats including pork, venison, lamb, beef, ham, sausages, turkey, chicken and fish (smoked salmon, trout and kippers) are available as well as locally grown fruit and vegetables.

Other delicious products on sale include jams, honey, bread, a vast range of cheeses and dairy products, free range eggs, herbs and spices, chutneys, marinated olives, sun dried tomatoes, specialist ales and fine English wines and liqueurs.

Treat yourself to the tasty selection of farm baked cakes, pies, farmhouse chocolates and fudge.

Look out for the Certification logo, above! This symbol means the market has passed inspection and represents true farmers' market values.

The website: [www.farmersmarkets.net](http://www.farmersmarkets.net) displays only markets which are members of FARMA and have begun or completed the Certification process.

## 8. Emergency Information

### Local Authority

Salford City Council: [www.salford.gov.uk](http://www.salford.gov.uk)  
Tel: 0161 794 4711

Outside normal office hours, including weekends and public holidays, the council's Emergency Service can be contacted on

Tel: **0161 794 8888**

### Police: Salford East Police

Dial **999** if there is a threat to life or a crime is in progress.

Tel: **0161 856 5127** for all non-emergencies

Text for the deaf: **'police' to 60066**

Your nearest police station is:

Pendleton Police Station  
Meyrick Road  
Pendleton  
Salford  
M6 6JA

Email: [salfordeast.neighbourhood@gmp.police.uk](mailto:salfordeast.neighbourhood@gmp.police.uk)

Website: [www.gmp.co.uk](http://www.gmp.co.uk)

Opening hours are:

10am-6pm Monday to Saturday  
Closed Sundays and Bank Holidays

### Fire: Broughton Fire Station

In case of emergencies please dial 999

The nearest fire is:

Broughton Fire Station  
443-445 Bury New Road  
Salford  
M7 4LE  
Tel: 0161 907 0703

**Ambulance**

North West Ambulance Service is the biggest ambulance service in the country providing 24 hour, 365 days a year accident and emergency services to those in need of emergency medical treatment and transport and covers the Greater Manchester area.

The nearest ambulance station is:

**Greater Manchester Area Ambulance Service**

56-58 Bury Old Road  
Whitefield  
Manchester  
M45 6AQ  
Tel: 0161 279 4800

**Hospital**

The nearest hospital (with A&E and Maternity department) is approximately 1.76 miles away at:

**North Manchester General Hospital**

Delaunays Road  
Crumpsall  
Manchester  
M8 5RB

Tel: 0161 795 4567

**University Dental Hospital**

Higher Cambridge Street  
Manchester  
M15 6FH

Tel: 0161 275 6666  
A&E onsite - 2.62miles away

**Salford Royal**

Stott Lane  
Salford  
M6 8HD

Tel: 0161 789 7373  
A&E onsite - 2.69 miles away

**Manchester Royal Infirmary**

Oxford Road  
Oxford Road  
M13 9WL

Tel: 0161 276 1234

A&E onsite - 2.95 miles away

**Manchester Royal Eye Hospital**

Oxford Road  
Manchester  
M13 9WL

Tel: 0161 276 1234  
2.95 miles away

**Royal Manchester Children's Hospital**

Oxford Road  
Manchester  
M13 9WL

Tel: 0161 276 1234  
2.95 miles away

**GP Practice****Higher Broughton Health Centre**

Bevendon Square  
Salford  
M7 4TP

Tel: 0161 792 2582  
0.4 miles away

**Lower Broughton Health Centre**

Great Clowes Street  
Salford  
M7 1RD

Tel: 0161 832 4915  
0.51 miles away

**Leicester Road Medical Practice**

53 Leicester Road  
Salford  
M7 4AS

Tel: 0161 708 9992  
0.59 miles away

**Smoke Detectors**

A smoke detector is a device that detects smoke and issues an alarm. Smoke detectors are fitted within your property and are key for the detection of and protection from fire.

## 9. Public Transport

### Buses

There are many bus services for your area they are:

SERVICE	ROUTE	FREQUENCY
27	Manchester – Swinton Swinton – Manchester Via Salford Shopping City	Every hour
52	Pendleton – Failsworth Failsworth – Pendleton Via North Manchester General Hospital	Every 10 minutes
96	Simister – Manchester Manchester – Simister Via Sedgley	Every hour
98	Bury – Manchester Manchester – Bury Via Prestwich Village & Radcliffe	Every 15 minutes
137 138	Bury – Manchester Manchester – Bury Via Heaton Park & Hollins	Every 20 minutes
51A	Cheetham – Trafford Centre Trafford Centre – Cheetham Via Pendleton	1 morning service Mon-Fri
X40	Whalley – Manchester Manchester – Whalley Via Accrington & Prestwich	Sporadic daily service - check timetable
X41	Harwood – Manchester Manchester – Harwood Via Accrington & Prestwich	Every 30 minutes
X43	Nelson – Manchester Manchester – Nelson Via Rawtenstall	Every 30 minutes
X44	Nelson – Manchester Manchester – Nelson Via Edenfield	1 an hour - check timetable

All timetables, locations of bus stops and maps of routes are included in Appendix B to this guide.

There is wheelchair access to the rear of the building through the basement entrance.

### DISABLED ACCESS - TRAVELLING BY BUS

LOW FLOOR EASY ACCESS BUSES are run with low floors which have no steps at the entrance, making getting on and off easier and where shown low floor buses have a ramp for access and a dedicated space for wheelchairs inside the bus.

Many accessible buses also have 'kneeling' suspension. This means the driver can lower the bus at the stop so that the entrance is closer to the kerb. There are seats near the front of the bus reserved for older or disabled people. There will be a sign to show which the priority seat are.

Several of the bus services that run from Great Clowes Street, Bury New Road, Great Cheetham Street West and Camp Street are low floor easy access buses. Full details on which services provide these facilities are available on the **Transport for Greater Manchester** website: [www.tfgm.com](http://www.tfgm.com)

Or by post:  
The Strategic Relations Department  
Transport for Greater Manchester  
2 Piccadilly Place  
Manchester  
M1 3BG

### LOCAL LINK

Local Link is a door-to-door flexible transport service that will pick you up and take you where you want to go. The services can be used by anyone and are available in defined areas, Spark Studio falls within this area.

The journey must be booked at least one hour in advance, but all your journeys can be booked at the same time, up to a week ahead. Local Link uses minibuses or taxis that are shared with other passengers.

Local Link services for the qualifying areas of Salford have been included in Appendix B of the 'Home User Guide' guide.

## **Park & Ride Scheme**

There are Park & Ride schemes operating from a number of Railway and Metrolink stations in the Greater Manchester area.

A map of all participating stations has been included in Appendix B to this guide.

More information can be found at:

[www.manchestercentral.co.uk/gettinghere](http://www.manchestercentral.co.uk/gettinghere)

## **Car Sharing**

The UK has the worst congestion, longest commuting time, second highest road utilisation and highest car ownership in the EU.

Car sharing is when two or more people share a car and travel together. It allows people to benefit from the convenience of the car, whilst alleviating the associated problems of congestion and pollution. It also allows people to share the costs of fuel and parking.

### **Sharing a car:**

- Reduces parking problems
- Undercuts the cost of nearly all other forms of transport
- Reduces the need for a private car
- Provides a real solution to the lack of public transport in rural areas
- Facilitates the integration of public and private transport
- Reduces congestion and pollution
- Widens the recruitment catchment areas for businesses
- Is a way of meeting new, like-minded people
- Reduces the costs of travelling by car.

For more information and locally run schemes go to:

[www.carplus.org.uk](http://www.carplus.org.uk)

## **Car Parking**

There are many car parks in Salford and Manchester with free parking available at the Park & Ride Scheme stations.

For more information on car parks go to:

[www.salford.gov.uk/parking](http://www.salford.gov.uk/parking)

[www.manchester.gov.uk/parking](http://www.manchester.gov.uk/parking)

## **Trains**

The nearest train stations are:

Manchester Victoria – 1.5 miles away

Salford Crescent – 1.8 miles

Salford Central – over 2 miles away

Manchester Piccadilly – 2.7 miles away

Regular services to a wide range of destinations are available from these stations including all major cities and Manchester International Airport.

## **DISABLED ACCESS - TRAVELLING BY RAIL**

Information on the accessibility of stations and trains can be found on the National Rail Network website:

[www.nationalrail.co.uk](http://www.nationalrail.co.uk)

## **Stations made easy**

Stations made easy is a new interactive tool on the National Rail Network website that gives passengers the ability to plan their route through a station avoiding features (such as stairs) that might be difficult to use. Further information on the facilities at stations can be found at National Rail Enquiries on:

\*Phone 08457 48 49 50

\*Text phone: 0845 6050600

Arranging Assistance - National Rail can provide help using their services.

If passengers need assistance they recommend booking at least 24 hours in advance of travel. Booking in advance enables train companies to check the accessibility of the stations that will be used, help plan the journey best suited to the passenger's needs, and if necessary, arrange alternative transport to the nearest accessible station.

To arrange assistance passengers are required to contact the train company that they will be travelling with - contact details are listed below.

TRAIN COMPANY	TEL	TEXTPHONE / TYPETALK for those with hearing impairments

National Rail Enquiries will inform passengers which train company they will be travelling on as well as guidance on size and weight restrictions when travelling with a wheelchair, some of the issues around bringing powered scooters into the rail environment and concessionary discount on fares for:

- Blind or visually-impaired customers who are travelling with a companion and don't have a Disabled Persons Railcard
- Customers who stay in their own wheelchair for a rail journey and don't have a Disabled Persons Railcard
- Season tickets for blind or visually-impaired customers

## **Metrolink**

Metrolink services run from Victoria & Piccadilly Train Stations and from Piccadilly Gardens and Shudehill Bus Interchanges.

Metrolink services run to Bury, Altrincham and Eccles via Salford Quays and Media City. With work to new lines from Rochdale to Victoria and Piccadilly Gardens to East Didsbury due for completion in 2011.

## **DISABLED ACCESS - TRAVELLING BY METROLINK**

Metrolink is an easily accessible system, all stops have either a ramp, lift or escalator access and most platforms have tactile edges for visually impaired passengers.

All platforms have designated wheelchair/pushchair access point for step free access and each tram has designated disabled/pushchair areas with its own emergency / information call points.

For further information go to:

### **Transport for Greater Manchester headquarters**

2 Piccadilly Place  
Manchester  
M1 3BG

Tel: 0161 244 1000 (9am - 5pm, Monday to Friday)

[www.tfgm.com](http://www.tfgm.com)

## **Traveline**

For all your journey planning questions - from bus, train and Metrolink tram times to service disruptions and ticketing.

Tel: 0871 200 2233

(7am to 8pm, Monday to Friday, and 8am to 8pm at weekends and bank holidays)

## **Commenting on services**

Email: [customer.relations@tfgm.com](mailto:customer.relations@tfgm.com)

## **Passes & permits**

Tel: 0161 244 1050

(Line open Monday to Thursday 9am to 4.30pm, and Friday 9am to 4pm)

Email: [passes&permits@tfgm.com](mailto:passes&permits@tfgm.com)

Some disabled people are entitled to lower fares and free travel, Transport For Greater Manchester will be able to advise on those aspects aswell.

## **Cycling and Walking**

Salford City Centre is approximately 1.7 miles from Spark Studio which is a 30 minute walk or a 10-15 minute cycle ride away.

Manchester City Centre is approximately 1.5 miles away which is 25 minute walk or a 10-12 minute cycle ride away.

Cycle storage is provided in the grounds for all residents at Spark Studio with lockers and changing area in the basement.

Cycling along with walking are the most sustainable modes of transport. By switching the car for the bike you benefit from:

- An increased level of fitness
- Better physical and mental health
- Reduced travel costs

## **Route planning**

If you want to go cycling in Salford there are a range of routes from on road commuter routes for those who want to get from A to B quickly to the more recreational off road routes making use of the many disused railway lines.

For help planning cycle routes visit plan your route on Salford City Council's website where you can plan your journey using the online route planner, order free paper copies of the CycleGM district maps or view free online downloadable maps showing cycle routes.

CycleGM has maps of the entire Greater Manchester area which include both on road routes and traffic-free routes. For more information go to: [www.cyclegm.org](http://www.cyclegm.org)

Additionally go to the National Cycle Network this has a comprehensive network of safe and attractive routes to cycle, running throughout the UK about 12000 miles have been completed, one third of which is on traffic-free paths, the rest follows quiet lanes or traffic-calmed roads. This service is delivered through the policies and programmes of over 450 local authorities and other partners, and is co-ordinated by [Sustrans](http://Sustrans), the UK's leading sustainable transport charity: [www.ctc.org.uk](http://www.ctc.org.uk)

Sustrans provides free cycling information packs crammed with information about cycle routes and rides in your local area: [www.sustrans.org.uk](http://www.sustrans.org.uk)

## **Cycle Forum**

Set up by Salford City Council, Cycle Forum aims to promote cycling within the city. Regular meetings allow cyclists and anyone interested in cycling to raise and discuss any issues and to make suggestions. Visit the Cycle Forum on their website for details of upcoming meetings and more information.

# 10. Local Amenities

## **Post Office**

[www.yell.com](http://www.yell.com)

Alternatively go to: [www.pow.reonline.org.uk](http://www.pow.reonline.org.uk) for information and the location of your nearest place of worship for:-

Buddhism

Christianity

Hinduism

Islam

Judaism

Sikhism

All faiths listed have a place of worship located in less than 2 miles from Spark Studio.

## **Your local area and places of interest**

Salford offers a wealth of leisure opportunities for you to enjoy. Find out more about the city's museums and art galleries, parks and open spaces, sporting activities and visitor attractions by using the links on the left hand side of this page.

Ordsall Hall officially re-opened to the public on Sunday 15 May. There are a series of events and activities to mark the re-opening of the hall. For details of all events, activities, workshops and exhibitions please visit our [things to do](#) pages.

### **Country parks and local nature reserves**

Blackleach Country Park and Clifton Country Park are green oases within Salford. They are havens for wildlife and provide open space for everyone to enjoy. The city's two country parks are ideal places to get away from it all and discover the countryside on your doorstep. There are woodlands, grasslands, ponds and lakes to explore and hidden remnants of Salford's industrial past to discover.

In addition to the country parks, Salford Ranger Team also manages Kersal Dale, Worsley Woods and Kersal Moor. A programme of events and activities are provided throughout the year, these are featured in ON in Salford. The Team also provides environmental education programmes for schools and community groups and opportunities for volunteers to become involved in their local area.

For more information contact the Salford Ranger Team at Salford City Council.

## **Parks in Broughton and Blackfriars**

Within Broughton and Blackfriars there are five public parks available for use. Adjacent to the University of Salford, Peel Park, opened on the 22 August 1846, is possibly the world's first Public Park.

The parks within Broughton and Blackfriars contain many traditional facilities that are all available for use. These range from crown green bowling, football, rugby and children's play areas to fishing at Clowes Park Lake. In more recent times modern works of art and sculpture have been added.

**Albert Park, Grecian Street M7** is the nearest park to Spark Studio where the following facilities are available: bowling green - veterans' pavilion - football pitches - artificial sports pitch (managed by Education and Leisure) - car parking - equipped play area for 4-14 year olds.

**Blackfriars Park, Mount Street M3** is one of Salford's smaller parks containing a playing field and several rose and shrub beds. Well equipped with seating areas, the park is popular with many local residents and provides an attractive location to gain fresh air and gentle exercise.

**Clowes Park, New Hall Road M7** Clowes Park is a small but very attractive public park, dominated by a central lake with a circular footpath, viewing points and an attractive boat-house. Located in a reasonably affluent area of the city, it is surrounded by private housing, which also forms the park boundary. To the north of the lake is a large play area, a small area of woodland and a walled garden. Areas of seasonal bedding displays rose beds, shrubs, herbaceous borders and rare trees are of particular interest.

Popular activities available include walking, sitting, fishing, feeding the ducks, informal games of football etc and children's play. Toilet facilities are available.

**Mandley Park, Leicester Road M7** is again one of the city's smaller parks. With extensive wide-open areas of grass being available it is frequently used for informal recreation such as football or even dog walking. The following facilities are available: Rugby pitch - equipped play area for 4-14 year olds.

**Peel Park including David Lewis Sports Ground, The Crescent M5** is considered to be the world's first public park; Peel Park has changed dramatically since opening in 1846. Adjacent to the once notorious slums of the Victorian era the park has evolved and now caters for both local visitors and students studying at the University of Salford.

The following facilities are available: football pitches, changing rooms, floral features, carpet bedding, and equipped play area for 4-14 year olds, Marie Curie Field of Hope, part of the Irwell Valley sculpture trail, flood obelisk and Salford Museum Art Gallery.

### The Lowry Art and Entertainment

Set in a magnificent waterside location at the heart of the redeveloped Salford Quays in Greater Manchester, The Lowry is an architectural flagship with a unique and dynamic identity. Rising from the regenerated docklands, it is a welcoming building, designed to reflect the surrounding landscapes and flourishing waterways, in its glass and metallic surfaces.

The Lowry opened on 28th April 2000, bringing together a wide variety of performing and visual arts under one roof. Opening its door to the best in entertainment and education in the arts, The Lowry houses two main theatres and studio space for performing arts (1,730, 466 and 180 seats respectively) presenting a full range of drama, opera, ballet, dance, musicals, children's shows, popular music, jazz, folk and comedy and gallery spaces showing the works of LS Lowry alongside contemporary exhibitions.

### Sport

**Salford Sports Network** has been developed to promote sports clubs in Salford representing over 139 clubs in Salford with this number growing all the time, their aim is to put people and communities in touch with sports clubs in Salford.

Their web-site is a first step at offering a shop window to make this happen and covers all sports from Angling and Athletics to Wheelchair Football and Wrestling with everything else between.

[www.salfordsportsnetwork.co.uk](http://www.salfordsportsnetwork.co.uk)

**Salford Watersports Centre** - is a state of the art water sports and outdoor activities centre located on Salford Quays.

The centre benefits from modern up to date equipment and employs a team of highly experienced and qualified staff.

They have a full programme of adult courses and under 16s courses available, to view these please visit their courses page.

Also you can take part in water sports by going to their open hire sessions where there is the option to hire your own instructor and have one to one tuition. Or if there are a few of you, you could go as a group and hire your own instructor.

[www.salford.gov.uk/watersportscentre](http://www.salford.gov.uk/watersportscentre)

And for the spectator:

Manchester City Football Club – City of Manchester Stadium

[www.mcfc.co.uk](http://www.mcfc.co.uk)

Manchester United Football Club – Old Trafford

[www.manutd.com](http://www.manutd.com)

Salford City Football Club – Moor Lane

Salford City Reds Rugby League Club – The Willows

[www.reds.co.uk](http://www.reds.co.uk)

Manchester Aquatics Centre – Oxford Road

The centre is used as a venue for world-class swimming events and galas and the training facility of the successful regional British Paralympics Swimming Squad, whilst also offering a variety of mixed leisure activities for the local community including a fitness suite with over 70 pieces of equipment, swimming sessions, Swim life swimming lessons, health suite and a variety of fitness classes.

[www.manchestersportandleisure.org](http://www.manchestersportandleisure.org)

#### Sportscity

Located within the Medlock Valley in east Manchester, Sportcity is the largest concentration of sporting venues in Europe and is just over two miles from Spark Studio.

Sportcity was developed for the 2002 Commonwealth Games and the 48,000 seat City of Manchester Stadium is now home to Manchester City Football Club. The site also features the National Squash Centre, the 6,500 seat Manchester Regional Athletic Arena, Manchester Velodrome and the Tennis Centre as well as a state-of-the-art gymnasium.

Sportcity has successfully developed world-class sports and events and it is now the chosen venue for over 400 events each year and receives over 4,500,000 visits annually.

[www.sportcity-manchester.com](http://www.sportcity-manchester.com)

[www.nationalcyclingcentre.com](http://www.nationalcyclingcentre.com)

Manchester city centre, with its huge variety of stylish bars, fantastic restaurants and exclusive stores is less than one mile away.

The Trafford Centre, with one of the best selections of department stores, high street and designer brands in the North West is situated only 5.8 miles away.

Combined with their cultural attractions, museums and sporting venues Manchester and Salford really do have something for everyone, so be sure to take advantage of living in the heart of it all.

## 12. Developer Declaration

I confirm that all the dwellings of this specification type on the Spark Studio site meet the stated criteria

## **APPENDIX A: EU ENERGY LABELLING LEAFLET**

### Washing machines, washer-dryers and dishwashers

#### How well does the product perform?

The 'A-G' indicators here are similar to the main energy efficiency ratings and are based on European standards (the test cycle used is on the label): 'A' is the best performance and 'G' the worst. Using models with 'A' ratings for both energy efficiency and performance, together with lower than average water consumption, will save you the most money – as well as being the best for the environment.

#### Conserve water

To help you choose a water efficient model, the table below shows roughly how much water typical appliances use.

Washing machine:	30-100 litres per wash programme (based on a wash load capacity of 5kg)
Washer-dryer:	60-200 litres per wash and drying programme (based on a wash load capacity of 5kg)
Dishwasher:	10-30 litres per wash (based on an 8-place setting)
Dishwasher:	10-50 litres per wash (based on a 12-place setting)

### Further information

#### Noise

Manufacturers don't have to provide information on noise. If shown, the lower the number, the quieter the appliance.

#### Light bulbs

In addition to the standard 'A-G' scale for energy efficiency, information on the packaging must include luminous flux (light output) of the light bulb in lumens, the input power of the light bulb in watts and the average rated life of the light bulb in hours.

#### No labels?

Ask your retailer first - he must, by law, provide this information. Local authorities in England, Wales and Scotland are responsible for enforcing the regulations that cover energy labels and similar energy information in mail order catalogues etc. Enforcement in Northern Ireland is the responsibility of the Trading Standards Service of the Department of Enterprise, Trade and Investment.

You can obtain contact details for your local Trading Standards Department by visiting [www.tradingstandards.gov.uk](http://www.tradingstandards.gov.uk) and entering your postcode.

### Related programmes

#### Save Energy

To find out more ways to save money on your energy bills and choose efficient appliances, visit [www.est.org.uk/myhome](http://www.est.org.uk/myhome) or call your local Energy Efficiency Advice Centre on 0800 512012 between 9am and 5pm Mondays-Fridays.

#### Market Transformation Programme

Energy labelling is supported via Defra's Market Transformation Programme. To find out more about this Programme, visit [www.mtprog.com](http://www.mtprog.com) or call the Programme's helpline on 0845 600 8951.

## Energy Labels

Helping you make the right choice

About Defra  
[www.defra.gov.uk](http://www.defra.gov.uk)

## Energy Labels

By law, the European Community Energy Label must be displayed on all new household products of the following types displayed for sale, hire or hire-purchase:

- Refrigerators, freezers and fridge-freezer combinations
- Washing machines
- Electric tumble dryers
- Combined washer-dryers
- Dishwashers
- Lamps
- Electric ovens
- Air conditioners

Mail Order catalogues, Internet advertisements and manufacturers' literature must contain similar information. You should expect to be provided with this information wherever you buy or hire these products.

## Product details

### How to Use the Energy Label To Choose More Efficient Products and Save you Money

#### What you get for your money – Energy Efficiency

The more efficient the product, the less energy it needs and the more you get for your money. 'A' rated products are the most efficient and 'G' rated products the least efficient. The most efficient fridges and freezers can now be identified by new 'A+' and 'A++' markings on the large black arrow appearing against the green 'A' arrow.

#### How much will it cost to run – Energy Consumption

This tells you how much electricity the product uses, in kilowatt hours (kWh)\*. Use the kWh figure to see how much electricity and money you might save if you chose a different model. Using less electricity is better for the environment and for your pocket.

*\* When you buy electricity, your supplier charges you for how many kWh or 'units' of electricity you use. A one bar electric fire uses 1kWh in one hour. A 100watt electric light bulb uses 1kWh in 10 hours' use (an energy-saving light bulb would go on for 40 hours on 1kWh of electricity!).*

## Product details

Actual savings will, of course, depend on how you use the product and how much you pay for your electricity. You can also save money by running washing machines, washer-dryers and dishwashers only when you have a full load, using economy and low temperature settings, and spin-drying clothes well before you tumble dry; by ensuring that fridges and freezers are installed away from cookers and other sources of heat in accordance with the manufacturer's advice; and by switching off lights when not needed.

#### Manufacturer's name and product details

This confirms the manufacturer's name and model number - check that this is the same as the model you actually choose to buy.

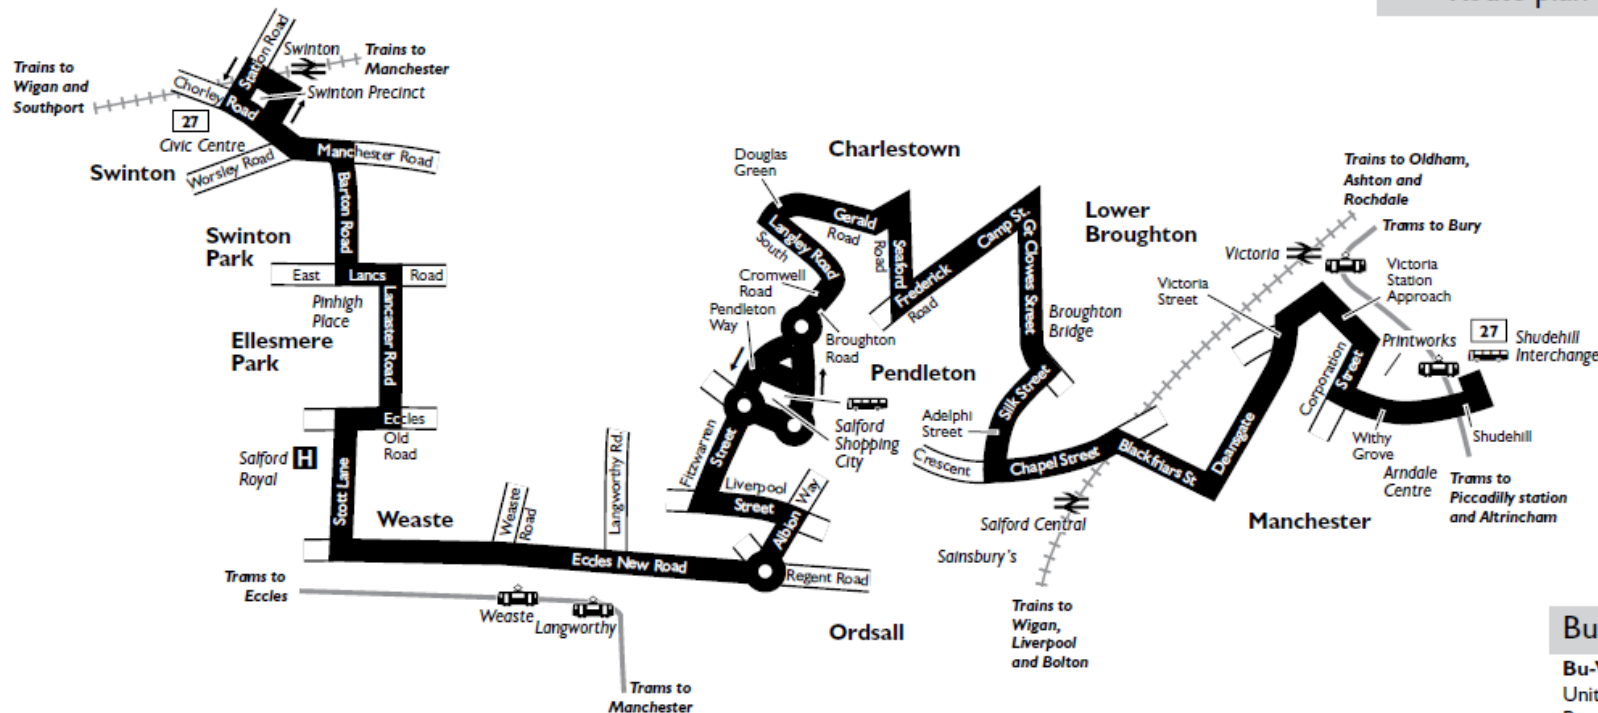

#### The European Ecolabel

Some products are awarded the European Ecolabel which may appear on the label or elsewhere. The Ecolabel indicates that the product has been independently assessed and found to meet strict environmental criteria (considering more than just energy consumption), putting it among the best in its class.

# Local Link

The low-cost, flexible and accessible, door to door, local public transport service for everyone.

To book, phone  
**08456 05 55 05**  
(local rate)

Online booking available at  
[www.gmppte.com/locallink](http://www.gmppte.com/locallink)

This Local Link service can be used by anyone living within the service areas highlighted in **colour** on the map inside.

## Booking your journey

- Call **08456 05 55 05** (local rate) and ask for Local Link.
- The booking centre is open **8am – 8pm** every day.
- Please call us at least an hour before you want to travel.
- You can book your journey up to one week in advance.
- Please tell us if you want a return journey.
- Let us know if you use a wheelchair or child buggy, then we can provide a suitable vehicle for you.
- You can also book online at [www.gmppte.com/locallink](http://www.gmppte.com/locallink)

## Fares

- Full details of fares are available at [www.gmppte.com/locallink](http://www.gmppte.com/locallink) or by calling Traveline on **0871 200 22 33** calls cost 10p a minute plus network extras.
- Concessionary fares are available. Proof of eligibility is required.
- Valid GMPTE travel vouchers are accepted.

This Local Link is run by Community Transport and funded by Greater Manchester Integrated Transport Authority. Online booking funded by GMPTE in partnership with the European INTERREG IVB ICMA project.

# Local Link

The low-cost, flexible and accessible, door to door, local public transport service for everyone.

Local Link provides public transport in areas where other services are limited. Anyone living in the local area covered can use the service and there are no age or disability restrictions. Local Link is a shared service so users may be travelling with other passengers.

For more information about Local Link, or if you would like this leaflet in other formats, please call Traveline on **0871 200 22 33**.

Lines are open 7am to 8pm Mondays to Fridays, 8am to 8pm Saturdays, Sundays and Public Holidays. Calls cost 10p a minute plus network extras.
